

## Round Push Plates

PBR1

*This standard 6" round push plate is the premium design for wall applications as it is functional, aesthetically appealing and weather resistant.*

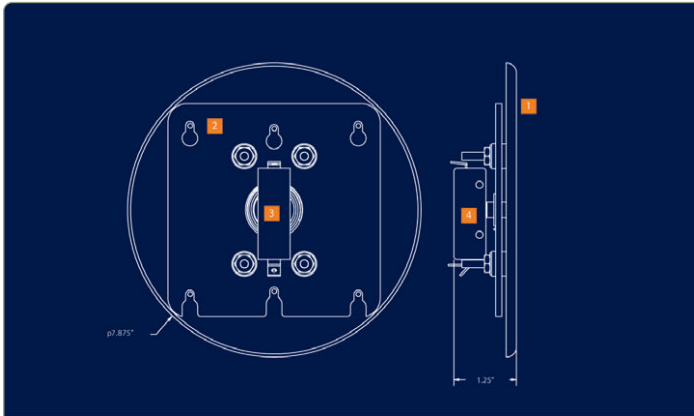

**A Plate Revolution, Now!**

### PBR Series

## Stainless Steel 6" Round Style Push Plates

- Greater surface area of the push plate makes this push plate easy to see
- Perfect for wall applications
- Beveled edges provide a tamper and vandal proof solution to your push plate needs, allowing no room to get objects between plate and box
- An all-active plate activates with any "push" location
- Stainless steel finish will not deteriorate/rust where it is touched and is scratch and scuff resistant
- Text and logo are baked onto the surface for leading durability
- Screws come in multiple sizes (#6 & #8), which fit both single and double gang mounting boxes
- Push plates come in multiple colors and sizes that allow you to easily meet specifications and customer requests
- Weather boot between plate and back plate for all weather applications
- Lifetime warranty allows you to save money in the long run

## Round Push Plates

- g. Wire nuts

### Custom Specifications

BEA proposes a variety of custom solutions for your push plates:

**Abrasive Etching/Engraved** – This method creates a very accurate and deep "scratch" in the plate that is then filled with paint to create the custom logo/text on the surface of the plate.

**Pad Printed** – Logo/text is actually stamped onto the surface of the steel plate using a special pad. The logo is only printed on the surface of the plate.

**Embossing** – This process requires the use of a special tool designed to punch the back of the face plate with the custom information. A special coating is added to create a dramatic 3D embossing for your push plate.
